Consultancy Service Biodiversity Clearing House Mechanism/ BKKHI Technical Support

Dear Sir/Madam,

As a federal enterprise, the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH supports the German Government in achieving its objectives in the field of international cooperation for sustainable development.

Indonesia is one of 17 mega-diverse countries in the world hosting 17% of the world's wildlife. Its islands are home to a high variety of species, including many endemic types. However, the unique country's biodiversity is vulnerable. In the current Mid Term National Development Planning (RPJMN), the government set several targets for 2024 such as the participatory inventorial and verification activities of 70Mha high biodiversity value forest including 27Mha of conservation areas and 43Mha of high conservation value area (HCV) that is outside the conservation areas, and the enhancement of Clearing House Mechanism (CHM) governance to address these problems. To reach these targets a strategic approach with a clear operational definition of biodiversity and financial resources are required.

GIZ Clarity project is currently seeking an Individual **Contractor for Consultancy Service Biodiversity Clearing House Mechanism/ BKKHI Technical Support**

The detail services is set forth in the attached of Term of Reference and other annexes.
