

Key Note Speaker

Chiara Antonietti

Swiss Federal University for Vocational Education and Training (SFUVET, Switzerland)

Ms. Chiara Antonietti has a Master degree in Clinical, developmental and neuro-Psychology and she is currently attending the Ph.D at the Institute of Education of the University of Zurich (UZH).

She previously worked as research assistant at the Institute of Communication and Health (Università della Svizzera italiana, Switzerland).

From August 2020, she is junior researcher at Swiss Federal University for Vocational Education and Training (SFUVET, Switzerland) and she works in the research field about educational technologies in VET.

She is collaborating in a project of the Swiss National Science Foundation (National Research Programme 77) on the digital transformation in upper secondary schools. Her principal research interest concerns the integration of technologies into teaching, with the focus on the digital competence and beliefs of teachers.
