Guido Lotz

Freelance Management & International Development Cooperation Consultant

Mr. Guido Lotz is a consulting professional with a passion for sustainable economic development and for complex multi-stakeholder strategy & transformation processes. He has more than 25 years of consulting experience, having successfully implemented numerous assignments from private sector clients and international development organizations.

In the field of international development cooperation, Guido has profound expertise and experience in "Technical and Vocational Education & Training" (TVET) as well as "Employment Promotion" and "Private Sector Development", embedded in integrated approaches towards sustainable socio-economic development. His assignments as mission leader and advisor comprise (1) appraisal and design of project and program proposals, (2) policy, strategic-conceptual, management & organizational development and technical advice, (3) monitoring & evaluation and (4) conceptualization as well as implementation of conferences and workshops.

Prior to being a freelance consultant, he worked as an "Advisor to the Director's Office & the Industrial Electronics Department" at the *German-Malaysian Institute (GMI)* in Kuala Lumpur.

Guido completed master studies in Electrical Engineering, TVET, Business Administration & Economics and Social Sciences at the *Leibniz Universität Hannover*.
