Technical Assistance Facility on Migration Governance

towards effective and coherent migration
management

WHAT WE OFFER

Background

After the 2018 revision of the Migration Policy Framework for Africa (MPFA) the AUC conducted a needs assessment among Member States and RECs. The results revealed an urgent need to strengthen the capacity of Member States in the area of migration governance. In response, a five-year Continental Capacity Building Programme on Migration Governance was developed, and the Technical Assistance Facility on Migration Governance was launched.

Its **key objective** is to support Member States and RECs in strengthening their migration governance regimes by providing **technical trainings** and **consultancy services** in four areas:

Conducting **situation analyses** & Migration Profiles

Formulating and evaluating migration **policies & mainstreaming** migration into national and regional development

experience sharing through exchange visits

Establishing or strengthening national and regional migration **coordinating mechanisms**

HOW IT WORKS

Member States/RECs can submit their requests to the AU Commission through a Note Verbale. The request will be reviewed by the Department of Social Affairs.
