

Assessment, Testing, Examination and Certification in TVET

Sample Course 2: Development of Examinations of Theory and Practice in TVET

The course aims to empower teaching staff of TVET institutions and companies to plan and develop summative assessments and examinations related to competences. This involves, theoretical and practical assessments as well as attitudes. Starting from a defined occupational competence standard, participants will be guided through the development process step by step.

- **Content, elements, format and duration can be customized to the respective needs**

Learning outcomes

On completion of the training, participants can

- discuss the different areas and methods of summative assessment and their pros and cons
- explain the assessment and examination process and relevant steps
- plan and design competence-based and work-related summative assessment and examinations
