

Green Competences for Green Jobs

Sample Course 2: Development of Green Competences

A greening economy requires a workforce with adequate green skills. The participants learn what green competencies are and how these can be implemented on different levels of the TVET system. They will know how green competences can be identified, trained and assessed in adequate manner.

- **Content, elements, format and duration can be customized to the respective needs**

Learning outcomes

On completion of the training, participants

- are able to describe approaches and examples on implementing green competences in the TVET system on different levels
- are able to identify green skills for selected occupations
- are able to explain how they can involve companies in identifying green competences
- can apply selected teaching methods within an action-oriented approach
- are able to assess different competence levels by adequate assessment methods
