

Greening TVET - Approaches to Green Competence Development

The ongoing green transition requires a workforce with adequate green skills. The participants will learn the concept and implementation levels of green competence development. They will know how green competences can be identified, trained and assessed in an adequate manner.

- **Content, elements, format and duration can be customized to the respective needs.**

Learning outcomes

On completion of the training, participants

- are able to describe approaches and examples of implementing green competence development in the TVET system on different levels,
- are able to identify green skills areas for selected occupations,
- are able to explain how they can involve companies in identifying and developing green competences,
- can apply selected teaching methods within an action-oriented approach,
- are able to assess different competence levels by adequate assessment methods.

Contents

- Green occupations and greening occupational profiles.
- Green competences.
- Involvement of companies.
