

Strategic TVET Management and Institutional Leadership

Course 4: 21st Century Leadership in TVET

TOPICAL AREA: Management of TVET Institutions

21st Century Leadership is based on an appreciative, growth-oriented attitude which should be embraced by the whole institution and spearheaded by the management. In this course, participants will receive an innovative training on 21st Century Leadership competences and how to integrate these into their day-to-day work as decision makers in TVET departments and managers of TVET institutions. The concept of transformational leadership combined with new approaches to agile management tools and methods will form the focus of the programme.

- **Content, elements, format and duration can be customized to the respective needs**

LEARNING OUTCOMES

On completion of the training, participants

- are able to describe the interlinkages between 21st century leadership, 21st century education and 21st century skills
- are able to distinguish transformational leadership from traditional leadership principles and deduce appropriate measures for their own area of responsibility
- are able to select tools of agile management applicable in their working context
- are able to identify and apply transparent and appreciative, self-reflective communication concepts
- are able to detect, address and manage conflicts constructively in their institutions
