## Georg Spöttl

University of Bremen

Since 2015 Prof. Dr. Dr. h.c. Georg Spöttl is Director of the Centre of Technology, Work and TVET (C-TAB) at University Bremen and Director of Steinbeis Center InnoVET. He is President of the TVET Research Community in Germany (GTW).

Until 2015 Prof. Dr. Dr. h.c. Georg Spöttl (Emeritus) was full-time Professor at the University of Bremen, and Chair of its Faculty of Mechanical Engineering as well as engaged at ITB as Director and Board Member.

His former positions include a full professorship at the University of Flensburg and directorship of the Department of Occupational Specialization Mechanical Technology. In 1997 Prof. Spöttl founded the institute for TVET teacher qualification called “Berufsbildungsinstitut Arbeit und Technik (biat)” at University of Flensburg.

During his professorship at University of Flensburg and at University of Bremen he assumed responsibility for Bachelor and Master Programs for Teacher Training in Mechanical Engineering and Automotive Technology, where he implemented TVET teacher training concepts and successful improvement of the Vocational Education Science Approach.

He is member of the former UNESCO working group „World Thought Leaders within the 4th International Revolution“ and Board Member of “The New York Academy of Science” for digitalization and shaping of education.

Prof. Dr. Dr. h.c. Georg Spöttl is and has been Scientific Director of various national, European and international research projects, partly in cooperation with globally acting research institutes.
