

Green Competences for Green Jobs in a Greening Economy

Course 2: Development of Green Competences

TOPICAL AREA: Green TVET

A greening economy requires a workforce with adequate green skills. The participants learn what green competencies are and how these can be implemented on different levels of the TVET system. They will know how green competences can be identified, trained and assessed in adequate manner.

LEARNING OUTCOMES

On completion of the training, participants

- know approaches and examples on implementing green competences in the TVET system on different levels
- are able to identify green skills for selected occupations
- know how they can involve companies in identifying green competences
- can apply selected teaching methods within an action-oriented approach
- are able to assess different competence levels by adequate assessment methods

CONTENTS

- Implementation levels and approaches
- Green occupations and greening occupational profiles
- Green competences
