

Modern Teaching and Learning

Sample Course 2: Competence-Based Curriculum Development and Mapping

The course aims to empower management and teaching staff of TVET institutions and universities to develop competence-based curricular frameworks, syllabi and other didactical plans. Furthermore, it gives a methodology on how to analyse, compare, modify and update traditional, existing curricula and syllabi that are not competence-based with competence-based frameworks, e.g. national competence standards or competence-based occupational profiles. It is recommended, though not required, to attend the course “Competence-Based Education and Training” before this course.

- **Content, elements, format and duration can be customized to the respective needs**
