

IKI IN COLOMBIA

Portfolio 2021

The diverse portfolio of the International Climate Change Initiative (IKI) in Colombia operates on a national, regional and local level and is directly aligned with the country's ambitions and challenges in the areas of climate change and environmental protection. The projects support the government in the implementation of the Nationally Determined Contributions (NDC), the development of green finance mechanisms, the protection of ecosystems and coastal areas, sustainable agriculture practices and low-carbon transport, thereby making an important contribution to Colombia's climate and environmental goals.

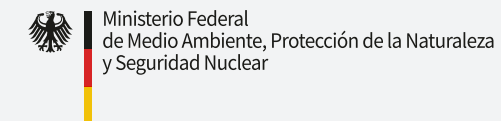

Since 2011, the German Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU) has been supporting climate and biodiversity projects in Colombia through the IKI. With a portfolio of 47 bilateral, regional and global projects implemented by 25 different organisations in the areas of mitigation, adaptation, REDD+ and biodiversity, Colombia is a strong focus country of the IKI¹. The total funding volume of these projects is more than 410 million €².

¹ 9 projects are currently in the approval process.

Within the framework of IKI's knowledge management strategy, a number of projects in the partner countries have been selected and provided with an interface function to support the exchange between all IKI projects in these countries and inform BMU about relevant changes on a strategic and political level in the respective countries.

The NDC Policy Programme (ProNDC), implemented by GIZ and Colombia's Ministry of Environment and Sustainable Development (MinAmbiente), Ministry of Agriculture and Rural Development (MinAgricultura) and National Planning Department (DNP), was established as an interface for IKI projects in Colombia. As part of this role, the interface carries out various knowledge management activities in order to facilitate an exchange between all implementing organisations and projects, share experiences and strengthen synergies between IKI projects in Colombia.

² The figure of 410 million € includes funding for bilateral, regional and global projects. 58 million € of this sum are dedicated exclusively to Colombia, the rest supports activities in Colombia and other countries where regional and global projects are implemented.

Fondo Acción
Moving Colombian Low Carbon Development Strategy towards Action: Implementation Phase

2018 - 22

KfW
Transit-Oriented Development (TOD) NAMA

2016 - 23

GIZ
Colombian NAMA for the domestic refrigeration sector

2017 - 22

ADAPTATION

KfW
Adapted management of ecosystems to prevent coastal erosion in a changing climate

2018 - 23

GIZ
NDC Policy Programme (ProNDC)

2019 - 23

BIOLOGICAL DIVERSITY

WWF
Protected Areas and Peace - Improving protected area effectiveness by combatting the underlying causes of deforestation and degradation in Colombia

2019 - 22

OIA
Indigenous and afro-descendant women conserving biodiversity in north-western Colombia

2019 - 21

GIZ
Protection of ecosystem services through integration into regional development strategies in the Orinoquia - TEEB

2018 - 22

GIZ
Identification, delimitation and integrated management of marine protected areas

2019 - 23

UN Environment
World Environment Day Colombia 2020

2020-21

TNC
Enabling conditions to reduce deforestation in the Colombian Amazon through sustainable agroforestry under a landscape approach

2017 - 21

CIAT
Implementation of sustainable land use systems for forest conservation, climate protection (REDD+) and peace-building in Colombia

2018 - 22

REDD+

REGIONAL

IADB
LAC Green Finance Facility

2016 - 24

GIZ
Raw materials and Climate Change: Promotion of low-carbon, environmentally sustainable and resource-efficient methods in the production of raw materials

2019 - 22

WWF
Establish Sustainable Consumption and Production - a South-South Transfer

2017 - 22

IADB
Water Funds: A Sustainable Climate Adaptation and Resilient Model for Stressed Urban Watersheds in Latin America and the Caribbean

2018 - 22

GIZ
Scaling-up Ecosystem-based Adaptation (EbA) Measures in rural Latin America

2020 - 25

CIES
Ambition leaders: Support for ALLAC countries in the UNFCCC negotiations

2013 - 22

TNC
Implementation and Financing of Ecosystem-based Adaptation (EbA) by the Food and Agriculture Sector to reduce climate risk and environmental impacts in Latin America

2021-21

GIZ
Protected areas and other area-based conservation measures at the level of local governments

2016 - 22

WRI
Supporting Initiative 20 by 20: A country-led effort to bring 20 million hectares of degraded land in Latin America and the Caribbean into restoration by 2020

2015 - 21

GLOBAL

WBG
Partnership for Market Readiness (PMR)

2011 - 21

BUND
Strengthening civil society in the implementation of national climate policies

2018 - 21

ICLEI
EcoLogistics: Low carbon freight for sustainable cities

2017 - 21

UNEP
NDC Action - facilitating implementation of climate-resilient and low-carbon development aligned with national and global goals

2019 - 23

GIZ
Mainstreaming EbA - Strengthening Ecosystem-based Adaptation in decision making processes

2015 - 22

UNDP & FAO
Support Programme on Scaling up Climate Ambition on Land Use and Agriculture through NDCs and National Adaptation Plans (SCALA)

2019 - 25

IUCN
Scaling Up Mountain Ecosystem-Based Adaptation: building evidence, replicating success, and informing policy

2020 - 21

IUCN
Protected Area Solutions for Biodiversity and Climate Change: achieving quality elements of Aichi Target 11

2015 - 22

UNEP
TEEB Implementation: Supporting Biodiversity and Climate friendly Land Management in Agricultural Landscapes

2017 - 21

UNDP
Biodiversity Finance Initiative (BIOFIN II)

2018 - 25
