

PROJECT MODEL

BUILDING AN INCLUSIVE AND CIRCULAR TEXTILE WASTE VALUE CHAIN IN INDIA

Textile Waste Management Methodology which documents the learnings relating to sorting of post-production and post-consumer textile waste.

Reuse Guide containing a variety of re-use strategies, practices and product applications for textile waste.

Disseminate these knowledge materials and learnings across local and international organisations.

Build partnerships across the textile value chain including with brands, governments, sustainable solution providers and other industry stakeholders to strengthen the local textile sorting and recycling ecosystem.

Share insights from the project with government, industry bodies, waste management organisations and other stakeholders for development of textile waste management policies and regulations.

Creation of training curriculum and building capacities of brands, sustainable solution providers and chindiwallahs and waste workers in recovery of textile waste through various learning programs.

5 GENDER EQUALITY	8 DECENT WORK AND ECONOMIC GROWTH	9 INDUSTRY, INNOVATION AND INFRASTRUCTURE
12 RESPONSIBLE CONSUMPTION AND PRODUCTION	13 CLIMATE ACTION	17 PARTNERSHIPS FOR THE GOALS

Increase in livelihood opportunities from textile waste management

Enhance capacities of brands, solution providers and waste workers

Improved resource recovery from textile waste management

Improved awareness regarding sustainable textile waste management
