1,215,000 EUR
Italian Ministry of Interior:
900,000 EUR

Duration

(07/2020 - 06/2023)

Continuation of

Mutual trust, institutionalised cooperation and exchange of information remain crucial elements in the further development of the international fight against serious crime and terrorism across the region and with the EU.

THAT IS WHY WE AIM...

...to strengthen the operational capabilities of Western Balkan law enforcement and security authorities to fight serious and organised crime and terrorism (**operational support**).

...to support the relevant authorities to effectively participate in and contribute to EU and intra-regional cooperation structures and assessments (**strategic cooperation**).

...to strengthen the capabilities of Western Balkan law enforcement and security authorities to exchange information (**interoperability of information systems**).

OUR KEY ACTIVITIES

Operational Support

- 1 | Our EU experts work with their colleagues in the Western Balkans on concrete cases, establishing trust and close cooperation between the Western Balkans law enforcement institutions, EU agencies and the Member States.
- 2 | Together with Europol, the Drivers and the Action Leaders we improve the ability of the Western Balkans institutions to actively take part in and contribute to the EU Policy Cycle (EMPACT Priorities).
- 3 | The project offers EU wide expertise to our partner institutions - flexible and on demand: Technical Assistance Facility (TAF).

Strategic Cooperation

- 4 | The project strengthens the cooperation with relevant EU Justice and Home Affairs agencies (e.g. Europol, Eurojust) & relevant networks (e.g. European Judicial Network).
- 5 | With the Regional CT/ Security advisor we support the functioning of the Regional Network of National Prevention and Countering of Violent Extremism (P/CVE) Coordinators.
- 6 | Together with Europol and other partners, our experts support the partner institutions in developing two regional Threat Assessments on SOC and Terrorism.

Interoperability of Information Systems

- 7 | In synergy with Europol and other partners, the project supports partner institutions' upgrade and extension of information systems and databases.
- 8 | By supporting the implementing of the EU directives 2004/82/EC and 2016/681 (API/PNR) we work on more robust passenger data protection standards within the Western Balkan systems.
