

## What is atingi?

atingi is the digital learning platform of the German Federal Ministry for Economic Cooperation and Development (BMZ), which exploits the potential of digitization and offers free learning opportunities worldwide that comply with the General Data Protection Regulation (GDPR). Users can access high-quality digital learning content anytime and anywhere and improve their employment opportunities. atingi was developed by a team of digital experts and works closely with Smart Africa, the African Union's digital initiative, as well as many other partners from business, politics, academia, and civil society. The goal is to establish atingi as the standard tool for digital learning offerings in German development cooperation.

## Goals

Development of a platform for digital learning with partners from business, politics, science and civil society

Improved employment and income opportunities for young people in the Global South through need-based and free learning opportunities.

Development of learning content by and with the target groups

1.3 million users, 2.3 million completed learning modules by 2025 (January 2022: 440,000 users)

## The platform

### Available in 8 languages

atingi is currently available in 8 languages, with the Moodle-based learning system supporting more than 100 languages.

## Learning formats

atingi is a state-of-the-art eLearning platform that can be accessed on all common devices and offers a variety of course formats:

### Tutored

A tutor supervises the course and the learners and intervenes if necessary

### Self-paced

The learner is able to control the amount of learning material and the duration of learning

### Blended Learning

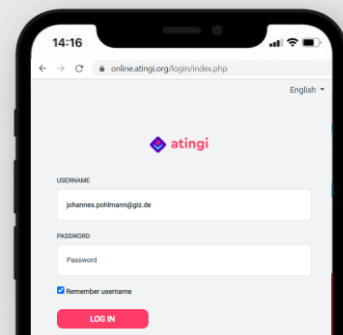

A form of learning that combines the advantages of classroom training and e-learning

### Serious Games

Games that are not primarily intended to entertain, but to acquire knowledge

## Technology

atingi focuses on a mobile-first design and can be used on all common devices, such as PC, smartphone or tablet. Learning content can even be downloaded and accessed offline via the atingi Android app.
