

Call for expression of interest for provision of services:

Expert on Development and Delivery of Capacity Building Activities on Climate Change and Health CoSoft: 83433219

The Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH is a global service provider in the field of international cooperation for sustainable development.

GIZ Office in Skopje in the frame of the project “Building capacity towards sustainable human capital development in North Macedonia” is looking for up to **four individual local short-term consultants** with experience in

1. **Climate Change and Health** (CoSoft: 83433219); (this announcement)

Please check the additional announcements in case you are interested to apply for:

2. Education for Sustainable Development and Climate Change for the institutions in the education sector
3. Education for Sustainable Development and Climate Change for Teaching and Managerial Staff in Schools and
4. Climate Change and Labour and Social Policy.

in order to provide support for development and delivery of Capacity Building activities to the key stakeholders in the health, education, labour and employment sectors on topics related to climate change and sustainable development.

The aim of the Project is to straighten climate change capacities of national institutions and to shift towards sustainable human capital development in the sectors of health, education, and labour and social protection. The project is implemented by the GIZ Office in Skopje and the Cabinet of the Deputy President of the Government in charge of economic affairs, and it is financially supported by the Green Climate Fund Readiness and Preparatory Support Programme. The duration of the project is 24 months.

Task of the expert include:

- Review and analyse institutional policies and organizational gaps in relation to climate change within the Health Sector, focusing on the Ministry of Health (MoH) and Public Health Institute (PHI).
- Prepare and deliver training on decarbonization of the health sector
- Assess the contribution of the health sector to the national GHG emissions and decarbonisation potential of the health sector, and provide reports, recommendations, options, best practices for decarbonization.
- Develop an Action Plan with measures on decarbonization of the health sector.
- Conduct and support the consultation process by organizing meetings, trainings, workshops with the relevant stakeholders, in the country and online.

Location: North Macedonia/ online

Type: Short-term engagement

Planned period of assignment: April 2023- August 2024

Expected workload: up to 83 working days.
