

atingi

learn.connect.act.

atingi is an digital learning platform
for young people in the Global South

atingi is the **new digital learning platform**
of the Federal Ministry for
Economic Cooperation and
Development (BMZ)

With *atingi*, the BMZ is pursuing three central objectives

1.

Relevant content

Provision of relevant digital learning opportunities for young people in the Global South

2.

Developed with partners

Development of a platform for digital learning with partners from business, politics, science and civil society

3.

Target group specific

Development of the learning content by and with the target groups

atingi offers relevant learning content to people with difficult access to education

Difficult access to education in target countries especially for disadvantaged groups

Existing learning formats often do not reach affected people, thus opportunities on the labour market are lost

atingi offers innovative eLearning content (also) to people from rural and remote areas

At a glance: That's what atingi can do

Courses can be made available for **exclusive user groups** or a **broad target group**

Evaluation of online courses using **online surveys**

Advice on **methodology** and **didactics** by an experienced team

Selbstlernkurse, Blended-Learning, Online-Tutorien, Szenario- und spielbasiertes Lernen

Technical **First Level Support** by the GIZ

Content available on common devices: **Computer, Laptop, Tablets, Smartphones**

DSGVO-compliant and **free platform usage**

Certificates for completed courses

atingi offers a variety of learning formats

Tutored

A tutor supervises the course and the learners and intervenes if necessary

Self-paced

The learner is able to control the amount of learning material and the duration of learning

Blended Learning

A form of learning that combines the advantages of classroom training and e-learning

Serious Games

Games that are not primarily intended to entertain, but to acquire knowledge

atingi is user-friendly and supports all common technical standards

- Mobile first approach
- User friendly design
- SCORM compatible
- Open Content
- AI for Natural Language Processing in local African Languages (coming soon)
- Protection against certificate counterfeit (coming soon)

So far *atingi* offers content for the following target groups

atingi currently offers learning content on the following topics

atingi starts in Africa and is successively extended to other regions of the world

Currently

4

focus countries

Key areas of cooperation:

- Vocational training
- Employment promotion

Niger

Employment promotion ,
agriculture, governance

Through partnerships *atingi* unfolds its full potential

What our partners think about atingi:

ELISABETH FISCHER, Consultant of the GIAE, supraregional competence development:
Finally, we can fulfill an urgent wish for our seminar participants [...] With atingi, we are creating a virtual learning space that offers our participants the opportunity to exchange technical information. Through mutual and online coaching by experts, you can put your transfer ideas into practice. With this we want to promote a continuous network of experts in and between our 16 partner countries, who exchange their learning experiences in a self-organized manner and share new knowledge

DR. BARBARA FILTZINGER, Programmleitung Bildung der Siemens Stiftung

With atingi we have found a partner who is firmly committed to digital education in Africa. Through our cooperation we are able to support young Africans in their professional orientation and provide them with free and high quality materials under open licence, so-called OER, via the platform. The motor of our cooperation is the belief in innovative educational approaches.
