

Transformative modes of working and capacities

The integrating power of Long-term Strategies to achieve transformation pathways towards decarbonization and resilience

Rainer Schwark
Andrea Palma
Anja Rosenberg

**This Session will be
recorded!**

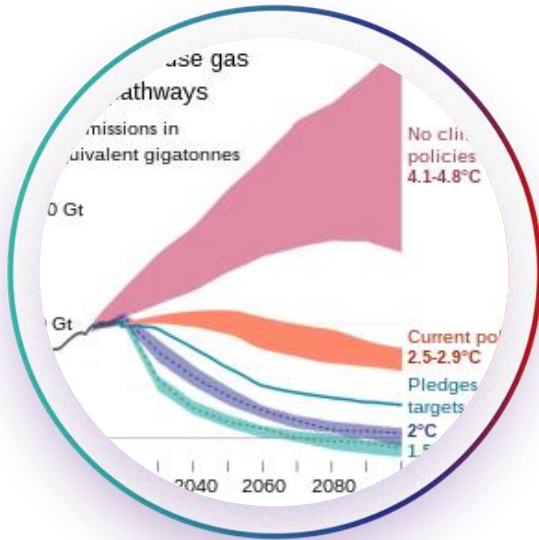

This session aims to discuss:

What enabling factors should be in place in order to conceive an LTS supported by society & private sector, and which barriers need to be overcome on the way?

Which elements in the process governance of LTS elaboration need to be tailor-made and which can be standardized to fit multiple countries' needs?

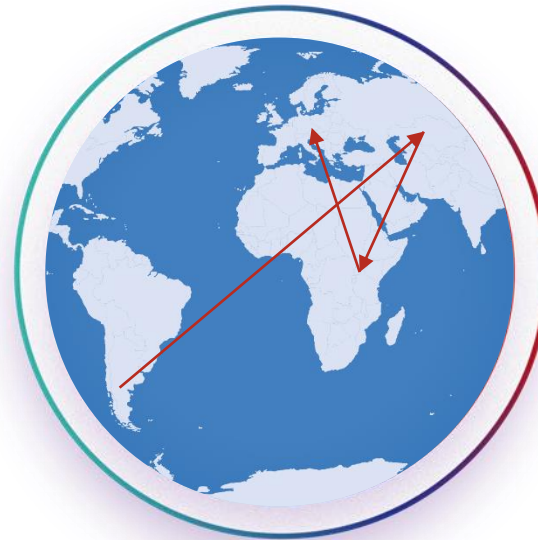

AGENDA

FUTURE FORUM 2023

What are LTS and how is GIZ involved?

Thematic input

LTS development processes in Chile, Kazakhstan, Uganda, EU

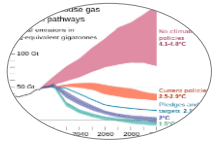

Presentations on enabling factors, challenges and lessons learnt

Elements in LTS elaboration

Discussion in groups

SPEAKERS

Marie Hertel,
GIZ Germany

Thematic input:
What are LTS? How is GIZ involved in LTS?

Paola Vasconi,
GIZ Chile

Three main enabling factors from Chile's LTS elaboration process experience that will ensure that Chile's LTS will be truly transformative

Dana Yermolyonok,
GIZ Kazakhstan

Three most critical challenges from Kazakhstan's LT-LEDS elaboration process experience

Andrew Hollander,
Ritah Rukundo, David Kisakye,
GIZ Uganda

Three key lessons-learned in the process of aligning NDC with LTS

Anja Rosenberg,
GIZ Austria

The legal framework as an enabling factor for LTS elaboration in the EU and its neighbourhood

Introduction to Long-term Strategies

Marie Hertel/ GIZ Germany

IKI Support Project for the Implementation of the Paris Agreement (SPA)

What are Long-Term Strategies (LTS)?

Legal framework:

- Paris Agreement. Art. 4. sub. 19
- Glasgow Climate Pact. CMA.3, IV

Diversity of terms based on Common But Differentiated Responsibilities (CBDR) principle and of target year by or around mid-century:

- Net zero; carbon neutrality; low carbon; low GHG emission; etc.
- 2035; 2045; 2050; 2060; 2070

Long-term commitments set in:

- Law (e.g., Climate Bill)
- In policy document (e.g., LTS, NDC)
- Head of state commitment (e.g., at COPs)
- Aspirations/visions

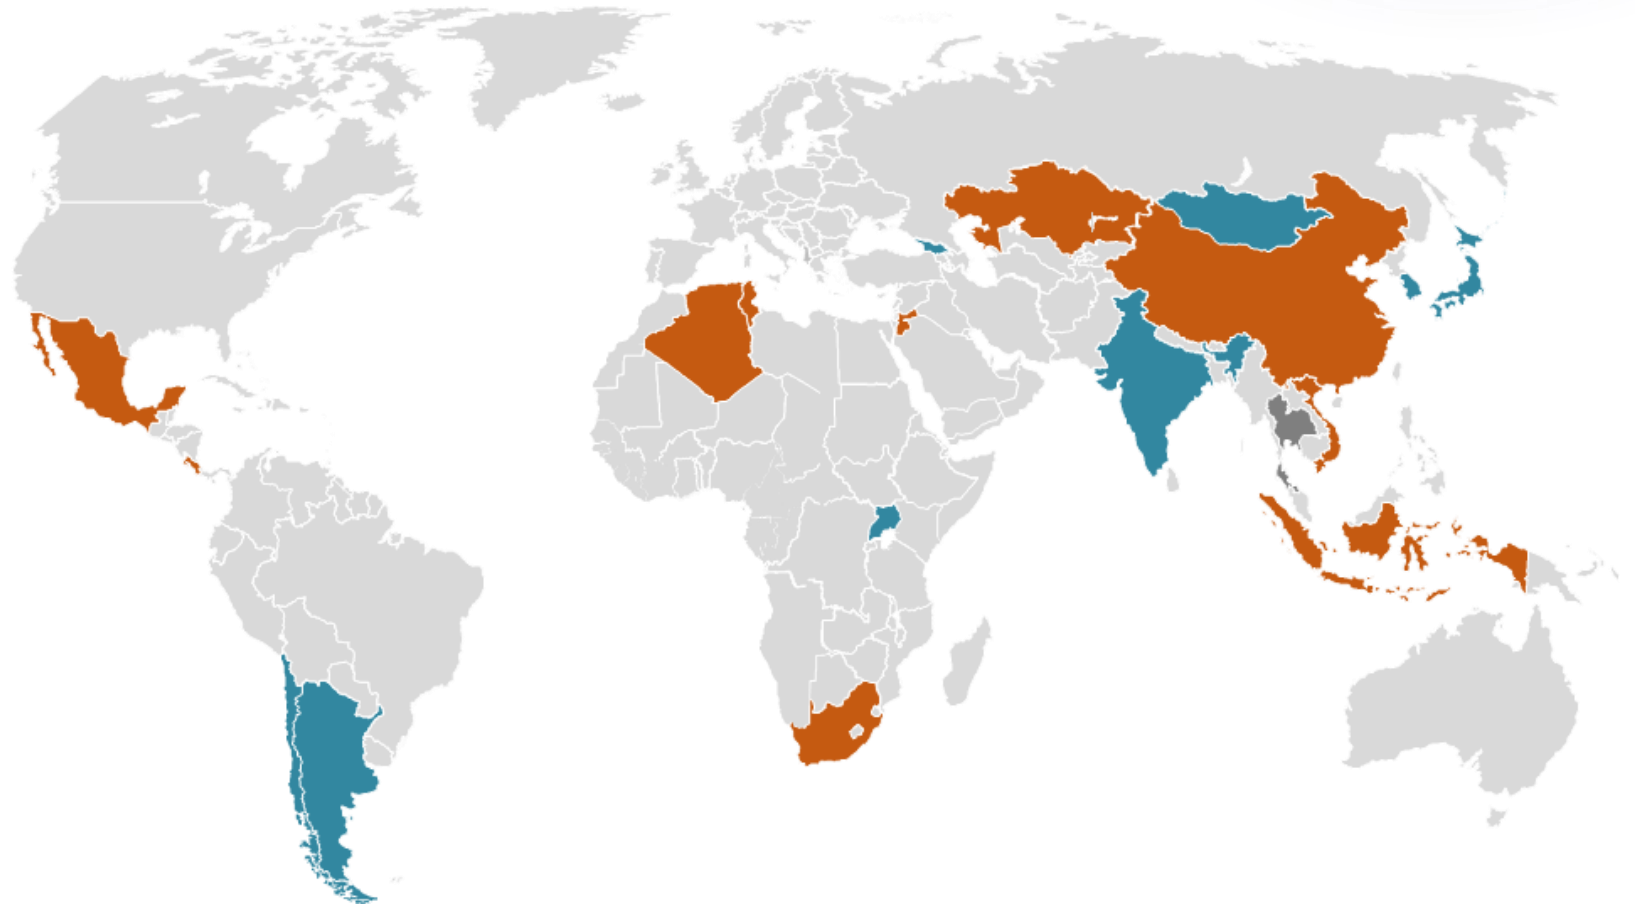

Overview of GLZ projects providing LTS support

- As of September 2023, **37 countries** are covered with LTS related projects.
- There are **14 projects** related to LTS (bilateral, multilateral (regional and global)).
- **Funding** source: IKI (BMWK, BMUV and AA)
- **Type** of support:
 - direct and indirect support to LTS
 - both for adaptation and mitigation

Coverage of countries

Type of projects:

- Global/regional
- Bilateral
- Global/regional and bilateral

Key areas of support for LTS

Overall support to developing LTS

Sectoral support for policy enhancement, modelling and scenario development

Capacity development

Stakeholder engagement, knowledge exchange and learning

Three main enabling factors from Chile's LTS elaboration process experience that will ensure that Chile's LTS will be truly transformative

Paola Vasconi, GIZ Chile

Three most critical challenges from Kazakhstan's LT-LEDS elaboration process experience

Dana Yermolyonok, GIZ Kazakhstan

2 Kazakhstan: Challenges in the country's LT-LEDS elaboration process

States

REG.
(EU)
2018/
1999

REGULATION (EU) 2018/1999 governs the preparation, ambition, content and consultations of LTS

Annex IV details out scope and content

1. Overview and process for develop. LTS
2. Economy-wide and sectoral targets and policies for GHG, RES and EE
3. Financing
4. Impact assessment of the socio-economic aspects
5. Details on modelling and/or analysis, indicators etc.

1. What are the **key steps in LTS elaboration** ensuring that LTS will be ambitious, realistic, credible, inclusive and just and truly transformative?

2. From your experience in elaborating LTS or comparable climate related processes: What worked and what did not **work well in terms of governance** (and consolidation)? What do we learn from that for future GIZ support?

3. What **elements in the LTS elaboration** process should be tailored to a country's circumstances? Which elements – if any – could be **standardized** to bundle GIZ existing knowledge and help new projects to fast start support? Why?

Wrap-up

WANNA HEAR MORE ABOUT LTS?

LTSxChange Session

October 25th, 2023
13:00-14:00 CEST

Join to

- learn about GIZ's LT-LEDS portfolio and the results of the Future Forum – 2023,
- reflect and exchange on how to improve and scale the impact of development cooperation for sustaining LTS support in our partner countries,
- collectively define the priorities for the LTSxChange series for future events.
