– Opportunities and Challenges

Discussion with Participants

Outlook and Next Steps

Building Capacities for Transforma(c)tion NOW

Agriculture & Food, Resources & Circularity, Energy & Mobility

Future Forum Key questions

- How *can* and *should* **livable futures** look like for the big socio-ecological transformations? (future visions)
- How can we **contribute** to such ambitions of transforming entire sectors and societies? (levers & methods)
- What **modes** of delivery and **capacities** make this possible beyond individual projects? (transforming our work)
