

Internal displacement in a conflict zone: lessons learned from Ukraine

Background

Almost 1.5 million IDPs registered in Ukraine since 2014

More than 70 % of IDPs settled in Eastern Ukraine

Number of IDPs registered since 2014. Source: UNHCR

Implemented by:

giz Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH

IIPU: Perspectives for Eastern Ukraine

» Facts & figures

- **6.5 Mio** people benefit from our work
including **350,000** IDP
- Project budget: **94.4 Mio** Euro
- Duration: 2015 – 2020
- Staff: appr. 90 NP + AMA

30 %
less fire victims

40.000

children benefit from improved learning conditions

3.5 million

people get better administrative services

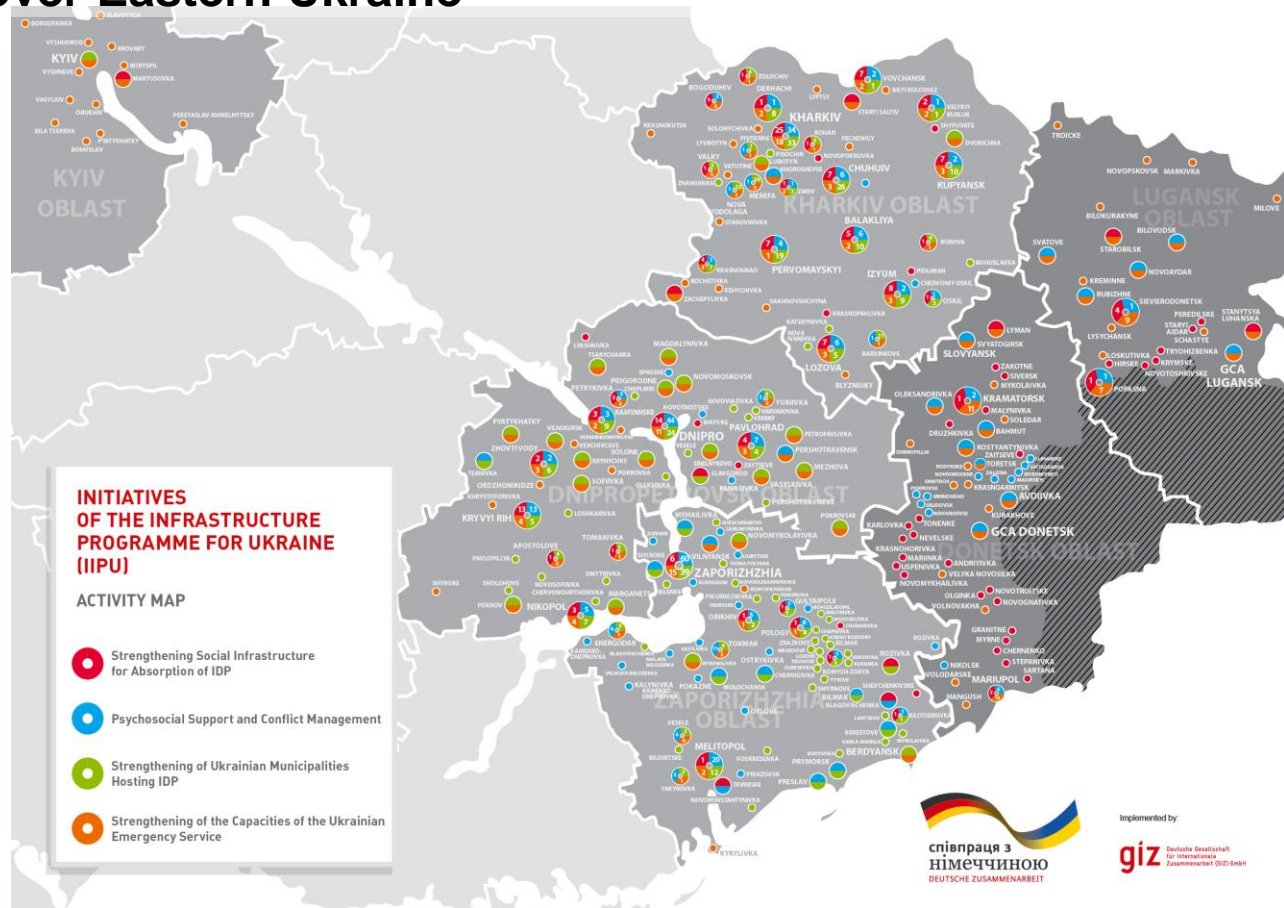

1 Million

people benefit from improved healthcare

IIPU – Perspectives for Eastern Ukraine have implemented over 800 activities all over Eastern Ukraine

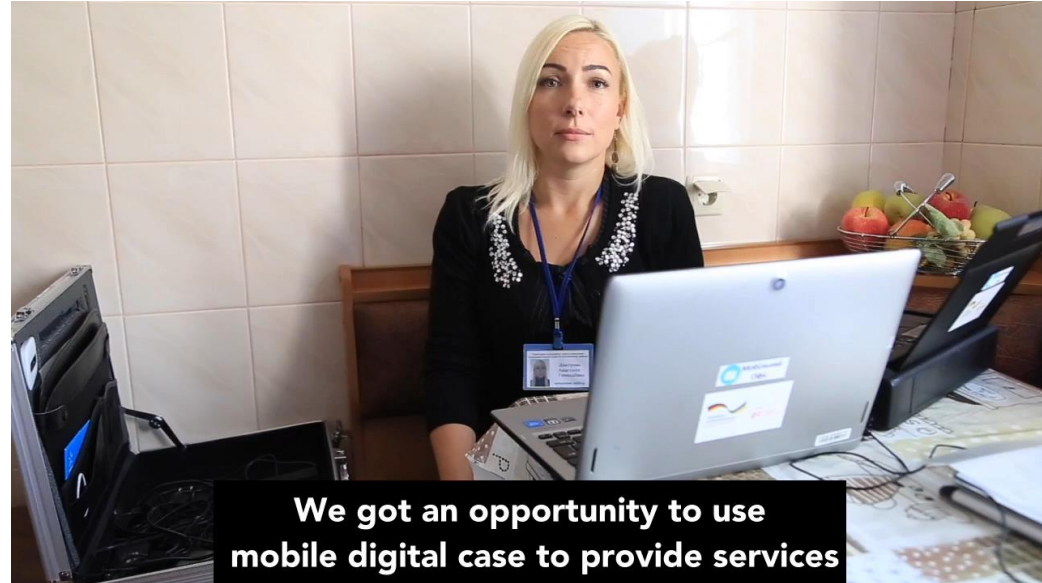

- ✓ Over 6 500 000 IDPs and local residents benefit from IIPU activities
- ✓ Cooperation with more than 100 communities in 6 regions
- ✓ Support to more than 70 NGOs and civil society organizations
- ✓ Improved healthcare for 200 000 people
- ✓ Improved studying conditions for 40 000 children at schools and kindergartens
- ✓ Over 90 social institutions are selected for renovation and technical equipment
- ✓ 5 000 emergency responders work safer

Administrative Services

More than 3,5 million people get better municipal services

- GIZ supported 25 towns of Zaporizhzhia, Dnipro and Kharkiv regions with new mobile digital cases for administrative, social and legal services.
- The citizens of remote areas, people with disabilities, elderly people and those who can't reach the centres are able to receive services at home.

**We got an opportunity to use
mobile digital case to provide services**

Education

- GIZ renovated and refurbished schools and kindergartens, provided educational institutions with new equipment and furniture and also offered workshops and trainings for almost thousand participants
- 40,000 people including approximately 3,500 internally displaced people benefit from these activities

Therapy Dogs

- GIZ supported the development of dog therapy in Eastern Ukraine to provide help to those affected by the conflict
- 28 licensed dog handlers and 41 psychologists, jointly with the trained dogs have already provided more than 640 therapy sessions in the east of Ukraine.
- This helped more than 1000 children and their families and the number is constantly growing.

Lessons Learned

- Be quick, flexible, adjustable to change
- Hosting communities should benefit as much as IDPs
- Integration was key for IDPs and hosting communities
- Big budget allows to achieve significant big-scale results
- Poor infrastructure remains in GCA – more needs to be done

Outlook 2019

We expand further east: Further project activities with a focus on GCA starting 2019

We provide a stable structure: Opening of an additional office in GCA (Mariupol or Kramatorsk)

We are flexible: Ready for partnerships and upscaling in all areas we are working in

Thank you!

Annex

Strengthening Capacities of the Ukrainian Emergency Service

A photograph of four firefighters in full protective gear, including helmets and jackets with reflective yellow stripes. They are standing in front of a building with blue and yellow walls. A white rectangular box with red text is overlaid on the image.

30 %

less fire victims

- Strengthening technical capacities
- Improving professional skills
- Support to develop a decentralized emergency management system
- Assistance in crisis situations

Municipal Services

3.5 million

people get better administrative services

- Consultation of municipal and regional administrations
- Optimization of decision-making and work processes
- Provision of modern equipment to service centers
- Capacity development for public institutions and civil society organizations

Healthcare Facilities & Psychosocial Support

A photograph of two young children, a girl and a boy, focused on a craft project. The girl is in the foreground, wearing a white shirt, and the boy is slightly behind her, wearing a blue and white striped shirt. They are both looking down at a white sheet of paper. In the background, there are other children and adults, and a large yellow sun-like drawing on a board. To the right, there is a cardboard box decorated with red lines to look like a brick wall, and another white sheet of paper with a yellow drawing of a person.

1 Million

people benefit from improved healthcare

- Consultation and capacity development at state and civil society organizations
- Improvement of demand-oriented services in psychosocial support
- Provision of equipment for nursing, rehabilitation and care facilities
- Integration and conflict management activities at host communities

Education

40.000

children benefit from improved learning conditions

- Rehabilitation and reconstruction of social infrastructure
- Provision of technical equipment
- Trainings to support acquisition of finance for infrastructure projects
- Development of accommodation concepts for IDPs
