

Three Pillars of Impact

- **Mindanao Agenda Tracker**
Track Mindanao's ten strategic priorities in real-time with interactive visualizations and progress indicators based on validated data.
- **Program & Project Database**
Access a comprehensive repository of ground-validated development initiatives across Mindanao. Every project is verified by stakeholders to ensure authenticity and prevent ghost projects. Search by location, sector, or implementing partner.
- **Mindanao Connect**
Collaborate with stakeholders, update project information securely, and discover partnership opportunities through our platform.

Get Started Today

1. **Explore** the Agenda Tracker to understand Mindanao's priorities
2. **Search** the Project Database for ground-validated initiatives in your area
3. **Connect** by creating an account on Mindanow Connect
4. **Contribute** by sharing your project updates with validation
5. **Collaborate** with other stakeholders for greater impact and accountability

One platform, countless partnerships—accelerating Mindanao's transformation.

This initiative is made possible through the financial support of the European Union and the German Government (BMZ), with implementation assistance from the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ). The Mindanao Development Tracker is a program of the Mindanao Development Authority.

Meaningful action for scalable growth

Track progress, share insights, and collaborate for Mindanao's development and transformation

[mindanaotracker.com/tracker](https://www.mindanaotracker.com/tracker)

Why It Matters

Government Agencies:

- Monitor implementation progress with validated data
- Improve coordination and accountability
- Access evidence-based policy guidance

Development Partners:

- Align with regional priorities using credible data sources
- Discover collaboration opportunities
- Verify project authenticity on the ground

For Local Communities & Researchers:

- Track validated projects and provide direct feedback
- Access comprehensive development data with transparency
- Generate custom reports for evidence-based planning
- Conduct gaps analysis to identify unserved areas

Transforming Mindanao Through Data

The Mindanao Development Tracker (MDT) is MinDA's flagship platform aligned with Republic Act No. 9996, supporting MinDA's mandate for evidence-based planning, policy research and formulation, monitoring progress and fostering partnerships

- MDT advances the government's push for Open Data and **Digital Transformation** Generating **credible data**
- Creating a repository of **validated programs and projects**
- Ensuring **transparency and accountability**
- Supporting **evidence-based policy** research

Key Features

METRICS:

Real-Time Progress Intelligence

- Live dashboard tracking all ten Mindanao Agenda priorities
- Visual progress indicators showing implementation milestones
- Data generated from credible, validated sources

INTELLIGENCE:

Comprehensive Project Insights

- AI-powered search across thousands of ground-validated initiatives
- Interactive geospatial maps with multiple layers (economic data, physical infrastructure, area profiles)
- Gaps analysis identifying unserved areas (e.g., municipalities without internet, waterless barangays, schools without ICT)

SCALABLE GROWTH:

Connected Collaboration

- Secure messaging platform connecting all stakeholders
- Smart data entry forms that scale with project complexity
- Mobile-responsive design enabling updates from anywhere

POLICY GUIDANCE: Evidence-Based Recommendations

- Transform insights into policy recommendations
- Support evidence-based policy formulation and interventions
- Enable data-driven decision making for regional development
