

# How to Access & Use the Map

## Step 1: Visit the Platform

Scan the QR code below or visit the web link provided by your implementing partner or LGU coordinator.

## Step 2: Explore the Interface

- Use the search panel to find specific projects, commodities, or locations
- Click on regional boundaries to view summary data by federation/organization
- Select point markers to access detailed project information including photos
- Navigate between map layers using the interface controls

## Step 3: Apply Filters & Generate Insights

- Use commodity filters to focus on specific value chains
- Apply organizational filters to see specific partner activities
- Use geographic searches to zoom into areas of interest
- Export or share findings with your team

# The SPADe iMap

The SPADe Interactive Map is a living platform that grows stronger with each partner, project, and community it connects. Whether you're planning interventions, monitoring progress, or seeking collaboration opportunities, this tool empowers you to make data-driven decisions that transform lives.

## Why Use the SPADe Map?

Make informed decisions based on real-time geographic data  
Avoid duplication and maximize resource efficiency  
Connect with partners and discover collaboration opportunities  
Showcase impact and attract additional support  
Contribute to coordinated agricultural transformation across Mindanao

## Partner Acknowledgment:

The SPADe Interactive Map is implemented through the collaborative efforts of international development partners, including MinDA and DILG as official project partners, local government units, partner organizations, and farmer and fisherfolk cooperatives across Mindanao.

## Empowering Communities Through Data Strengthening Value Chains Through Collaboration

The project "Strengthening the Implementation of Regional and Local Peace and Development Agendas in Mindanao (SPADe)" is co-funded by the EU and BMZ and implemented by Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH as part of the Mindanao Peace and Development Programme (MinPAD RISE). SPADe contributes to peace building and economic growth in Mindanao by developing agricultural value chains and cooperatives, and strengthening capacities of state and non-state actors for peaceful and inclusive development.

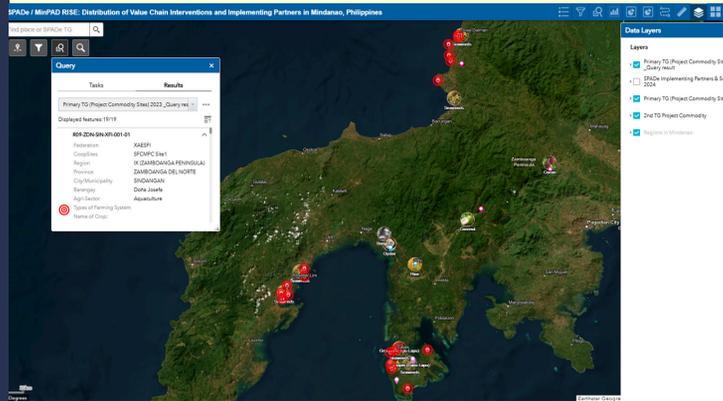

## Your Digital Gateway to Agricultural Development Data

Connecting Communities.  
Visualizing Impact.  
Driving Agricultural  
Transformation Across Mindanao

# What is the SPADe Interactive Map ?

A web-based geographic information system that visualizes agricultural development projects, cooperatives, and value chain interventions across six regions of Mindanao.

**Platform:** ArcGIS Web Map Viewer & Web App Builder  
**Database:** SPADe Survey Form - 2nd TG\_v5 (Survey123)  
**Created:** November 2022 | Modified: January 2024

## What You Can Find:

- **Regional Overview:** Click regional boundaries to see summary data of Secondary Target Groups (2ndTG) organized by Federation/Organization (3rdTG)
- **Project Points:** Click markers to view detailed information including photos, commodity focus, value chain interventions, and implementing partners
- **Cooperative Profiles:** Access data on 1,000+ cooperatives and federations including location, membership, commodities, and support services received
- **Value Chain Tracking:** See interventions across production, post-harvest, processing, marketing, and support services
- **Partner Networks:** Identify implementing organizations and their geographic coverage
- **Photo Documentation:** Visual evidence of project activities and progress

**Coverage: 6 Regions | 200+ Projects | 90+ Cooperatives | sites with Multiple Commodities**

# Key Features & Capabilities

## Interactive Mapping:

- Click regional boundaries for aggregated data summaries
- Click project markers for detailed project information
- All graphical layers are interactively clickable with relevant information

## Search & Filter Functions:

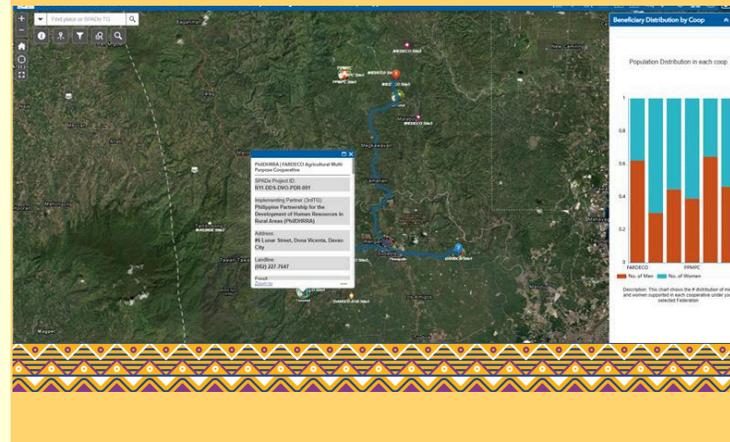

- Search by commodity (cacao, coffee, coconut, fisheries, etc.)
- Filter by organization or implementing partner
- Search by geographic location (region, province, municipality, barangay)
- Find specific cooperatives or federations

## Data Visualization:

- Photo galleries showing project activities and facilities
- Value chain intervention mapping across production to marketing
- Membership and beneficiary statistics
- Geographic distribution of commodities and services

## Reporting & Analysis:

- Generate visual reports for stakeholders
- Track implementation progress over time
- Identify coverage gaps and opportunities
- Monitor multi-regional programme coordination

# See Everything at a Glance

The SPADe Interactive Map Dashboard provides a powerful visual overview that lets you see all critical information in one place:

- **Regional Coverage Map:** Visual display of all 6 regions with project distribution and density
- **Quick Statistics Panel:** Real-time counts of projects, cooperatives, commodities, and partners
- **Commodity Distribution Chart:** Visual breakdown showing cacao, coffee, coconut, fisheries, and other value chains
- **Partner Activity Overview:** See which organizations are active in which regions at a glance
- **Value Chain Intervention Summary:** Visual representation of activities across production, post-harvest, processing, marketing, and support services
- **Geographic Heat Map:** Identify areas with high concentration of interventions and potential coverage gaps

# Who Benefits from the Dashboard View?

- **LGUs:** Quickly assess project distribution and identify coordination opportunities
- **Development Partners:** Monitor programme-wide implementation and generate instant insights
- **Local Organizations:** Understand the bigger picture and find collaboration opportunities
- **Cooperatives:** See where you fit in the larger agricultural development landscape
- **The Dashboard Advantage:** Make informed decisions faster with comprehensive visual intelligence that transforms complex data into clear, actionable insights.
