Documents to be submitted:

- CV and a statement of suitability for this position
- A maximum of 2 pages note on any one of the topics given below:
 - Assessment Question 1: Design a framework to increase the attractiveness of the Indian offshore wind market for global players.

Or

 - Assessment Question 2: Design a framework for promotion of India-EU business in the area of Wind turbine supply chains.

Avoid generic or AI-generated responses

Last Date of Application: 20th May 2026

A. About GIZ India

For details, click on: <https://www.giz.de/en/worldwide/368.html>

B. Project Background

Under the Indo-German Energy Programme (IGEN), the project "**Achieving India's Renewable Energy Targets**" aims to strengthen the technical, regulatory, and human resource capacities of key public and private stakeholders to support India's ambitious goal of achieving 500 GW of renewable energy capacity. The Ministry of New and Renewable Energy (MNRE) serves as the political partner on the Indian side, while the project is commissioned by the German Federal Ministry for Economic Cooperation and Development (BMZ).

The Multi-Donor Action "Support to India's Green Transformation (Clean Energy and Climate, Sustainable Finance and Biodiversity) – EU-India Clean Energy and Climate Partnership (CECP) Phase III" is jointly co-financed by the European Union (EU), and the German Federal Ministry for Economic Cooperation and Development (BMZ) and implemented by Expertise France (EF) and Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH.

GIZ will strategically concentrate its efforts on Offshore Wind sectors, leveraging its expertise and established partnerships. This strategic division of labour ensures specialised focus while maintaining a cohesive "Team Europe" approach. The parts of the Action implemented by GIZ are implemented as part of the BMZ projects "Achieve India's Renewable Energy Targets."

The Technical Expert – Offshore Wind Market Development will support the design, development, and scaling of offshore wind energy markets. The role involves providing technical, regulatory, and strategic advisory services to enable the deployment of offshore wind projects, strengthen institutional frameworks, and facilitate private sector participation.

C. Responsibilities

- Coordinating and communication with partners; ensuring flow of information with the project partners, and within the project is maintained.
- Plan and prepare tender packages for service providers to be contracted, Handling tasks related to S4GIZ (terms of reference, budget, process support for procurement of external services, liaison with consultants and quality assurance of services) and oversee implementation of services.
- Planning, coordination, and execution of workshops, trainings, study trips or conferences with a special focus on promotion of offshore wind development in India.

D. Core scope of tasks

The Energy Advisor – Offshore Wind Market Development will support the design, development, and scaling of offshore wind energy markets. The role involves providing technical, regulatory, and strategic advisory services to enable the deployment of offshore wind projects, strengthen institutional frameworks, and facilitate private sector participation.

Market Development & Strategy

- Support the development of offshore wind roadmaps, strategies, and policy frameworks.
- Conduct market assessments, including demand-supply analysis, investment potential, and pipeline development.
- Identify barriers to offshore wind deployment and propose actionable solutions.
- Support EU-India Business forum on Wind Energy.

Technical Advisory

- Provide expertise on offshore wind technologies, including fixed-bottom and floating wind systems.
- Support site identification, resource assessment (wind, seabed, metocean), and project feasibility studies.
- Advise on grid integration, transmission planning, and hybrid systems.

Regulatory & Policy Support

- Assist governments and stakeholders in designing regulatory frameworks, permitting processes, and tender mechanisms.
- Contribute to drafting guidelines, standards, and technical regulations.
- Benchmark international best practices and adapt them to local contexts.

Project Development Support

- Provide technical inputs for project structuring, procurement, and bidding processes.
- Support preparation of feasibility studies, DPRs, and technical specifications.
- Engage with developers, utilities, and investors to facilitate project pipelines.

Stakeholder Engagement & Capacity Building

- Coordinate with government agencies, industry stakeholders, financial institutions, and research organizations.
- Organize workshops, training sessions, and knowledge-sharing platforms.
- Build capacity of local institutions on offshore wind planning and implementation.

Knowledge Management & Reporting

- Prepare technical reports, policy briefs, and presentations.
- Document lessons learned and best practices.
- Contribute to project monitoring, evaluation, and reporting

Other duties/additional tasks, if any:

- Support in other coordination and project management tasks as and when required.

E. Required Qualifications, Experience and Competencies

- Master's degree in Energy, Policy, Engineering, Environmental Science, Economics
Bachelor's degree in engineering Excellent language skills in English (reading, speaking, and writing).
- 5 - 7 years of relevant professional experience, preferably in energy sector, public policy, or development cooperation.
- Strong knowledge of clean energy technologies, wind Energy sector, energy access models, and renewable energy policy landscapes.
- Familiarity with MNRE, CEA, NIWE, NISE, and state RE institutions and programs.
- Proven experience with data evaluation, monitoring frameworks, policy analysis
- Strong analytical skills, report writing, and stakeholder coordination capabilities.
- Excellent command of English and Hindi; knowledge of regional languages is an asset.
- Proficiency in Microsoft Office Suite (Word, Excel, PowerPoint); experience with data analysis tools is a plus.
- Self-driven, well-organized, and capable of managing multiple workstreams simultaneously.
- Experience working with government agencies, international organizations, or consulting firms is highly desirable.
- Experience working with or supporting government RE tenders, PPA mechanisms, or
- Experience working with grid planning.
- Understanding of RE supply chain localization policies and industrial policy trends.
- Familiarity with global offshore wind markets (e.g., Europe, UK, Asia-Pacific) and their regulatory frameworks.

F. Location: New Delhi

G. Duration of the contract: 31st October 2028

Application without GIZ application form will not be considered

- *Only shortlisted candidates will be contacted.*
