Circular Economy (CE) with the focus on solid waste management is one of the key priorities of the Indonesian German development cooperation. The project “InCircular: Promoting a Circular Economy in Indonesia” commissioned by the German Federal Ministry of Economic Cooperation and Development (BMZ) is supporting the Indonesian Ministry for National Development Planning (Bappenas) and further relevant ministries, agencies and the private sector to implement the national Circular Economy Roadmap and Action Plan. Three material streams are of particular focus, namely packaging waste (plastics, aluminium, paper, etc.), electronic waste and residual waste (to be potentially used as refuse-derived fuel (RDF)).

3. Technical and Financial Assessment or Evaluation

We will evaluate the bids received in the light of both technical and price considerations (see the attached **Technical Evaluation Grid as Annex 2**).

The technical proposals will be evaluated based on the criteria and weighting as Annex 2.

When the technical evaluation has been completed, the financial proposal of those bidders which are eligible from the technical point of view will be opened and evaluated by the commercial officer responsible. The technical and financial proposals are weighted at a ratio of 70:30 respectively. The technical bid will be weighted with 70% and the financial proposal with 30% on the basis of the following formula: (Technical points obtained by Bidders X divided by the best number of points) x 70 % + 30 % x (Lowest price divided by the price of Bidders X).

Technical evaluation of bid x 70% + most economical bid x 30%

Technical evaluation of best bid price of bid

An overall order of rank is thus established, with the most cost-effective bid at the top.
