Dear Sir/Madam,

As a federal enterprise, the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH supports the German Government in achieving its objectives in the field of international cooperation for sustainable development.

Indonesia continues to advance sustainable urban infrastructure development with a strong emphasis on integrated solid waste management systems that are environmentally sound, financially viable, and socially inclusive. This ambition is clearly reflected in national priorities, including the positioning of waste management as a key driver under the RPJMN 2025–2029, alongside an evolving policy landscape that seeks to operationalise circular economy principles in implementation-ready interventions at both national and sub-national levels.

Within this context, the SFF Circular Economy Technical Support Hub serves as a strategic platform to support partner cities in transitioning from early-stage concepts toward more structured, investment-oriented interventions. It focuses on strengthening the coherence between technical preparation and financial pathways, ensuring alignment with national planning instruments such as the Blue and Green Book, and enhancing the overall readiness and bankability of urban infrastructure projects. The Node also plays a critical role in bridging technical cooperation and financial cooperation, positioning cities more effectively with emerging financing opportunities, including through partners such as development finance institutions.

4. Technical and Financial Assessment or Evaluation

We will evaluate the bids received in the light of both technical and price considerations (see the attached **Technical Evaluation Grid as Annex 2**).

The technical proposals will be evaluated based on the criteria and weighting as Annex 2.

When the technical evaluation has been completed, the financial proposal of those bidders which are eligible from the technical point of view will be opened and evaluated by the commercial officer responsible. The technical and financial proposals are weighted at a ratio of 70:30 respectively. The technical bid will be weighted with 70% and the financial proposal with 30% on the basis of the following formula: (Technical points obtained by Bidders X divided by the best number of points) x 70 % + 30 % x (Lowest price divided by the price of Bidders X).

$$\frac{\text{Technical evaluation of bid} \times 70\%}{\text{Technical evaluation of best bid}} + \frac{\text{most economical bid} \times 30\%}{\text{price of bid}}$$

An overall order of rank is thus established, with the most cost-effective bid at the top.
