1	Motorbike Engine and Transmission: - Displacement: Min 125 cc - Engine type: Single cylinder, four-stroke, OHC - Power output: Min 8.0kW/ Min 8,250 rpm - Torque: Min 10.4 Nm/ Min 6,500 rpm - Compression: 9.2:1 or equivalent - Air Filter Type: Paper Element (Viscous Type) or Equivalent - Ignition: Electric/Kick - Cooling system: Air - Transmission type: Min 5-speed, manual, 1,125mm Physical Measures and Capacities: - Seat height: Min 849 mm - Dimensions (LxWxH): Min 2,107x827x1,125 mm - Kerb weight: Min 127 Kg - Battery: 12V-4Ah or equivalent - Ground clearance: Min 263 mm - Wheelbase: Min 1,358 mm - Fuel capacity: Min 12.00 litres. - Head Lamp: Min 12V-35/35W Chassis, Suspension, Brakes and Wheels: - Frame type: Semi Double Cradle or equivalent - Front suspension: Telescopic fork, 159mm Axle Travel or equivalent - Tyre size: Front:Min 70/100-21, Rear:Min 100/90-18 - Rear suspension: High Density Rear Shock tube, 148 mm - Axle Travel or equivalent - Rear brakes: Front/rear: Leading Trailing Drum or equivalent	9

LOT 2

SN	DETAILED SPECIFICATIONS	QUANTITY
2	Bicycles strong reinforced frame, fork and carrier with heavier gauge steel • Tube set - reenforced frame with heavier gauge steel (15 gauge), TIG welded in precision jigs. • Fork - Made of TIG welded in precision jigs (Oversized, 15 gauge) • Rear Carrier strength - Rear carrier with a capacity to carry at least 100 kg. • Carrier construction - Tubular steel, off-axle mounting, • Design of the bicycle frame - Universal frame fits and appeals to all riders (men and women) • Stand - 3D design with large footprint, off-axle mounting • Colour Paint - 4 layers coating, water sticker, UV resistant ink, black mudflaps (mudguard) Drive train • Bottom bracket bearing - Caged balls type, • Brake type - Coaster brake internal hub, • Sprocket - 2.8mm thick • Chain - Lighter, high-quality materials, fenders and chain guard to protect clothing Wheels and tires • Wheel size 26 inches, • Spoke and nipples - reinforced steel rims and nipples (13 gauge) • Hubs - Heavy duty front and rear hubs with high load rating for heavy loads like 100 Kg on the back • Tire casing - Made of nylon 4-ply nylon, Tire Compound High durometer compound, precision moulding • Wheel rim - Reinforced steel rims (18 gauge) • Valve for tube - Easy pumping, strong material and hard. Cockpit • Pedals - High-impact, made of nylon body, rubber compound plastic, ergonomically shaped with reflectors. • Pedal bearings - Made of Forged, heat-treated axle, precision bearing surfaces. • Saddle and seat post - Made of strong plastic frame and quality foam on top with strong twin springs with extended 12 inch. • Reflector - High-intensity reflectors secured with quality hardware • Bell system - Gear bell system mounted to handle of the steering frame. Environmental protection and comfort • Black mud flap - included for both rear and front. Accessories - Tool kit, Pressure pump.	5

Selection Criteria:

To qualify for consideration in the tender procedure, interested companies/firms are required to submit the following information and documents for eligibility assessment:

- Tax Clearance Certificate (TCC) and confirm **NO** ongoing litigation.
- Company profile and legal documents with a turnover of ZMW K1,200,000.00 or more for the past financial year.
- Offer validity for 90 days.
- Prices should be quoted in (ZMW) Zambian Kwacha **ONLY**
- Give a valid Guarantee/Warranty for the period of not less than **1 year**
- GIZ is VAT exempt.
- List of similar orders executed in the past.
- **Data sheets / photos must be submitted**

Submission Details:

- Cover letter with offer summary.
- Company details: Brief description of the company including copies of registration documents (physical address, contact details, etc.).
- Delivery Period

Bidders must comply with the Value Added Tax (VAT) regulations as stipulated by the Zambia Revenue Authority (ZRA) Specifically:

- Bidders with an annual taxable turnover exceeding ZMW 800,000 or a taxable turnover exceeding ZMW 200,000 in any three-month period are required to be VAT-registered and must issue electronic invoices through the ZRA's Smart Invoice system.
- Bidders below these thresholds are not mandated to register for VAT but may do so voluntarily.
- Compliance with these requirements is essential for participation in this procurement process.
- Bidders are requested to reference page numbers where specifications can be found in their respective bid document/data sheets.

How To Submit:

The number of pages of all submission documents shall not exceed 50 pages. External content (e.g., links to websites) will not be considered, the size limit of the attachment is 30MB.

Local bidders must submit their bids indicating the full specifications and delivery period via email: **zm_quotation@giz.de** with the subject line **"20.08.2026_Motorbikes/bicycles_7000018803/42988"**.

The closing date for handing in the **BIDS** is **Thursday 20th August 2026 at 13:00hrs**.

For further clarification interested parties may send enquiries to: **zm_inquiry@giz.de**

GIZ Zambia may request for necessary and/or more information during the evaluation.

Important Note.

Due to war caused by Russia in Ukraine the German Federal Office for Security in Information Technology (BSI) has added **Kaspersky** antivirus software to its list of communications equipment and services that are deemed to pose an unacceptable risk to the national security. **Kaspersky's** virus protection software is to be replaced with alternative products. It means, in case a bidder offers **Kaspersky's** virus protection software, this offer will be excluded as technically not suitable.

Before entering into any contract, GIZ reserves the right to ascertain the origin of the goods offered. This assessment will be conducted to ensure compliance with embargoes and other trade restrictions in place within the scope of GIZ's due diligence. This is particularly true of the EU sanctions against Russia, Belarus, Crimea and the affected parts of Eastern Ukraine [1] currently in place (primarily the EU Council Regulations No.: 833/2014 and 765/2006).

By submitting their bid, the bidder undertakes towards GIZ the responsibility that in the event of a probable award, the bidder will provide all necessary support to enable GIZ to ensure compliance with the sanction's regime – this assurance is thus given prior to the award of any contract. This includes in particular the obligation, if so, requested by GIZ, to complete a self-declaration to determine the origin of the goods offered and/or to provide GIZ with the required evidence of the origin of such goods. Should the bidder fail to meet these obligations or fail to do so within a reasonable period of time, this can result in their bid being excluded.

A contract can only be awarded on completion of this assessment of the origin of the goods offered. Should this check give grounds for concern or reveal facts that constitute a contractual impediment, GIZ shall inform the bidder without delay. GIZ shall also reserve the right in such cases to award the contract to the next-ranked bidder in the competitive tender procedure.
