

The Future Teacher Kit (FTK)

Scalable, accessible, and impactful teacher training to equip teachers with 21st century skills

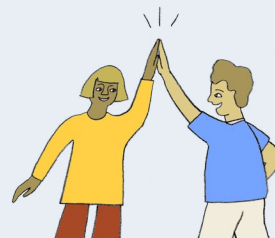

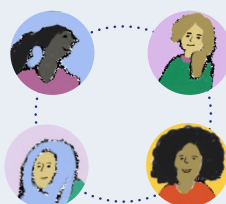

Low-Tech

The FTK utilizes mobile phones and messenger platforms - tools that teachers already use - ensuring easy adoption and scalability.

Individual Learning and Communities of Practice

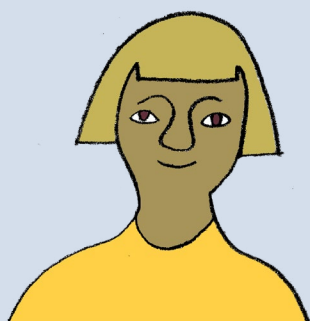

Teachers receive hands-on training snippets directly on their phones and collaborate in messenger groups exchanging ideas and best practices.

Motivation & Empowerment

The FTK continuously inspires teachers, recognizing them as key agents of change in education.

A Tried and Tested Solution

98 % of teachers reported an immediate positive impact after taking part in the FTK training.

Using the FTK was fun for both teachers and students.

I've seen quite an improvement in my students' performance and their eagerness into lessons and research because of this training.

Ready-to-Use & Customizable

- 1- Foundational teaching skills
- 2- Digital teaching skills
- 3- 21st century skills
- 4- Artificial intelligence
- 5- Teaching in crisis and conflict settings
- 6- Gender-transformative pedagogy
- 7- Education for sustainable development
- 8- Inclusion

Several modules are available for immediate use, can be contextualised and new content can easily be developed.

Try It Out Now!

Scan the QR code and type *learn* to test the FTK content on your messaging app.

Contact futureteacherkit@giz.de for detailed information on how to implement the FTK in your country.
