

# SWITCH to Circular Economy in Eastern and Southern Africa (SWITCH-2-CE in ESA)

**Fostering an inclusive transition to a circular economy**

In the context of the EU's Global Gateway, the SWITCH to Circular Economy in East and Southern Africa (SWITCH-2-CE in ESA) programme aims to foster an inclusive transition to a circular economy in the region. This initiative promotes green and circular business models to mitigate climate change, improve resource efficiency, and create economic opportunities. SWITCH-2-CE focuses on two key value chains: plastics and electronic waste.

The four-year programme is implemented by Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ), in partnership with Expertise France. The Multi-Donor Action SWITCH-2-CE in ESA is jointly co-funded by the European Union and the Federal Ministry of Economic Cooperation and Development (BMZ).

SWITCH to Circular Economy in East and Southern Africa  
Project team based in Zambia

Co-financed by the European Union and the German Federal Ministry of Economic Cooperation and Development (BMZ)

€40 Mio. Funding by the EU  
€2.5 Mio. Funding by the BMZ

Consortium Leader: GIZ, "Global Programme Go Circular" | €25 Mio  
Partner: Expertise France | €15 Mio.

Political partner: COMESA (*The Common Market for Eastern and Southern Africa*)

Duration of 52 months  
01/04/2025 – 31/07/2029

## Three Objectives:

Establish an enabling and inclusive policy framework for circular economy across the ESA region.

Enhance the participation of formal and informal workers and SMEs, including women and youth, in circular economy models.

Improve access to and use of financing by circular economy businesses, including a special focus on women owned and women led businesses.

Implemented by
